ENERGY ASSISTANCE SOLAR SAVINGS (EASSI)

EASSI (pronounced “easy”) provides technical and financial assistance to **nonprofits** and **businesses** to complete energy efficiency and renewable energy projects.

BENEFITS

1. Build a Roadmap for Success

Develop and/or build off a roadmap for high-impact project(s) that leads to optimized building operations, enhanced comfort, and energy savings.

2. Up-front financing, long-term savings

EASSI provides financial and technical support to access loans for energy investments. Energy efficiency and solar projects could save your organization thousands of dollars a year. Investing now will save you money long into the future!

3. Contribute to community resilience

By investing in energy solutions, you are not only saving money, you are also helping our community create a more sustainable future!
